

ABOUT US

It is with great pleasure that we put these two terrible years behind us and take this chance to propose our event and present our organization to you again.

We are "A.S.D. ECC MILANO 2020", an association composed by some Milano Area Control Center air traffic controllers, created to organize an 11-a-side football tournament called ECC (European Controllers Cup), which is hosted every year in a different European city.

A tournament between teams of each Area Control Center and control Towers of the most important cities in Europe and some teams from abroad, including USA, Russia, Kazakhstan etc.

The ECC involves about 48 teams with more than 1000 players.

Milano Team has been chosen to organize the ECC in 2020, the chosen location would have been the city of Verona, from 25th to 30th of May.

But then in February the pandemic event and the restrictions linked to covid-19 broke into our lives, which forced us to cancel the event less than two months from the beginning.

Although worried about the evolution of the disease, engaged in a laborious postponement job only a few meters from the finish line, we didn't give up, and with patience we waited for the moment when it was understood that the tournament could be re-proposed finally in conditions of a normal life.

Therefore we are proud to present our project again, the ECC football tournament, 2022 edition, in Verona from 16th to 21st May 2022.

The location selected is a sport 4 * Hotel center with 8 regular pitches in natural grass, next to Verona Villafranca airport.

We are very proud to host in Italy the 53rd edition after the Rome team organization in 2011 (by Rome Area Control Center).

The tournament, with its more than 1000 players, is an unique opportunity of cultural exchange and friendship between people, colleagues, friends, which have in common the same important job and the passion for football. And related to the recent pandemic, an excellent driving force for the restart.

The event takes stage in 5 days:

- Monday: arrival of the teams and welcome party in the evening (buffet dinner with music and dj set at the "Palazzo della Gran Guardia" in the heart of Verona city center);
- Tuesday and Wednesday group stage from 9 am to 5 pm. Each team plays 2/3 matches a day and between games players can relax under a big tensile structure with music, food and beverage to have fun and socialize.

At the end of these two days the tournament continues in sub tournaments: > first two teams of each group will take part at MAIN Competition (like Champions League);

> the third and fourth at PLATE Competition (Europe League); > the last two at VASE Competition;

- Thursday and Friday is the elimination phase, which leads the tournament to its 3 finals.

- Friday night our Farewell Party will take place, consisting in a classic gala dinner, served at tables, during which music, trophies ceremony, speeches and special guests (even sponsors) will drive the party until the end, at "Gallerie Mercatali" in Verona.

- Saturday morning, is time to go back home, teams will check out from every single hotel.

It is a great and intense event, and for the best success is absolutely necessary to gain all the available resources, including, of course, main and minor sponsorships. The opportunity in terms of visibility for the sponsors is huge, people involved in the tournament are positioned at high level in terms of personal budget, brand recognition and spread, our guests with a quite high cultural level are used to travel a lot around the world.

Our mission, is to organize the best ECC ever, a tournament that will be mentioned in the future from thousands of people all over Europe and beyond, thanks to our native Italian style, our beautiful cities, our effort and of course our sponsors.

And last but not least, to be remembered as the event that put the pandemic behind us.

For these reasons we kindly ask your company, recognized as leader in your field, to be part of this great event, sure that this tournament can give your company the perfect visibility inside our World.

We are at your disposal for any clarification you may need. Hope in a positive response.

Best regards
